It is my opinion that Microsoft is responsible for uplifting America to the Top in Technology. This Anti-Trust Prosecution by the Clinton Administration is nothing less than Corruption for monetary gain. Microsoft should receive support from us and not Prosecution. This is a Common Sense company paid for with honest earned money. If our Nations leaders were not corrupt at the conception of this Lawsuit Common Sense says it would have never happened. Microsofts donations to the people of this Nation are another thing. They have given much to the good causes of our good people. If anyone is guilty of anything it is the Clinton Administration being guilty of a conflict of interest and Microsoft being a victim of its unethical outcome. If the truth be known and when it is the people will side with Microsoft. This is an opinion based on fact. Thank You Lester Hopper 6294 Southlake Drive Hickory NC 28601
